Bring water, snacks, hat, insect repellent, sun screen. This will be flat, easy walking. You will drive short distances to various locations in the park, depending on recent bird reports.

Fort De Soto County Park is a premier birding destination in Florida. More than 250 species of birds have been recorded in the park over the years. Fall migration brings neo-tropical migratory species to the park as well as occasional wanderers from the Caribbean and the western United States. The island's shorebird diversity is one of the best on the Florida west coast. This trip is intended for advanced birders, and will be offered on both Saturday and Sunday. You will meet at the flagpole, then drive or walk to the hotspots of the day. Short easy walking at all times. If you care to bring your spotting scope, it will be handy for studying the shorebirds along the beach. If there's a passerine fallout you'll be in the wooded areas finding warblers, thrushes and buntings. There's never a bad day birding at Ft D!

NOTE PARKING FEE CHANGE: Once you enter the park, you must find a parking meter, enter your car license plate and pay the parking fee. As you move to various parking lots your car license will be checked electronically. The park toll booth is no longer manned to take fees. One fee covers the whole park.
